WHY BUY MAILORDER?

No sales tax—unless you live in California, free phone call, no parking hassles, quick delivery direct to your door. It couldn't get any easier.

IS IT IN STOCK?

When you place your order, your salesperson will let you know when you can expect delivery. If we are out of an item and we expect to get more, we will backorder it for you and ship it automatically when it comes in — charging you only when we ship.

NOT ALL WEB SITES ARE CREATED EQUAL

Ours is backed by 15 years experience delivering the best skateboard and snowboard products. Our site is fully secure, and designed to make it as easy as possible for you to place an order and check what's in stock 24 hours a day. Click with confidence.
www.ccsmailorder.com

EASY WAYS TO ORDER

The choice is yours: call 1-800-477-9283, fax 1-805-546-0330, drop your order in the mail, or buy on-line at www.ccsmailorder.com. We accept all major credit cards, checks—even by phone, money orders, or we can ship C.O.D. All the details are inside on the order form—any questions, ask away.

DON'T LIKE THAT?

We do our best to try and not carry graphics and designs that may be offensive to anyone. However, skateboarding has always celebrated the individual and has supported non-mainstream ideas. Please keep this in mind when looking through the catalog. We have tried to provide many choices in each product category so you can find something appropriate for you. If you have any questions on a graphic or design, call our sales staff. We will be glad to help you.

SHIPPING

We try very hard to ship within 48 hours of receiving your order. So for some parts of the country, if you order on Monday, you could have your new stuff by the weekend. When you place your order ask your salesperson how long it takes to your town.

SATISFIED WITH YOUR PURCHASE?

We sure hope so. If for any reason you're not, call our customer service department at 1-800-477-9283 . . . we'll take care of you.

'The Concrete Wave' Book

THE HISTORY OF SKATEBOARDING

We here at CCS know what you did this summer. You know what you did this summer. Chances are, your teacher will want to know what you did this summer. When you have to write that back to school paper on where you went, what you did, or what your favorite activities are, and your one word for one page is "skate", well, that might not get you the grade you're looking for. "The Concrete Wave" is a great tool for writing papers on your favorite subject, skating. If it doesn't help you for that first paper, it might for papers later in the year. Buy it with a backpack and we'll give you 15% off the book.

Bill Pepper

What's new? I'm writing a column in Big Brother called "Ask the Doctor." Kids write in with skate questions and I answer them.
Anything else? I helped design a new sweatshirt for Element with a secret feature . . .
Have you been skating a lot? Yeah, but I tweaked my ankle bad skating on a mini-ramp. I've been walking around on crutches for a week, but I'm getting better.
Been on any road trips lately? I just got back from a road trip to Las Vegas and Southern California with Kenny Hughes. I witnessed an accident where people lost their lives. It was a nightmare vacation, it changed my life. It helped me to appreciate life more . . . in the larger scale of things, I'm just happy to be here.
So how do you plan to move on from that? I just want to continue to skate and progress, learn more tricks . . . that's what it's all about . . . learning more tricks . . . I'm just glad to have an opportunity to heal.

Emerica continues to create industrial strength shoes with superior craftsmanship. Utilitarian in design, Emerica is a hybrid of function and comfort built for endurance.

As a purely skate shoe, Emerica recognizes the vast difference in technique from skater to skater, so we have three divisions of shoes to satisfy the needs of all temperaments of skater.

Emerica's roots and inspiration are skateboarding in its purest form. Not image, not fashion, not glamour. Emerica is simply skateboarding.

Through it all, Emerica remains true to skateboarding.

Lo Cut 2

The intention may not be for skating, rather comfort and styling. You can't skate all the time, this is where the Lo-Cut 2 comes in. A cushioned E.V.A. midsole, padded tongue and collar, and an insole with removable arch support take this shoe past its good looks to add functionality and comfort. Not to be taken wrong, this shoe could be skated in, for it does have multiple layers and triple stitched sections, but it might not be your first choice for durability. Remember, comfort and styling.

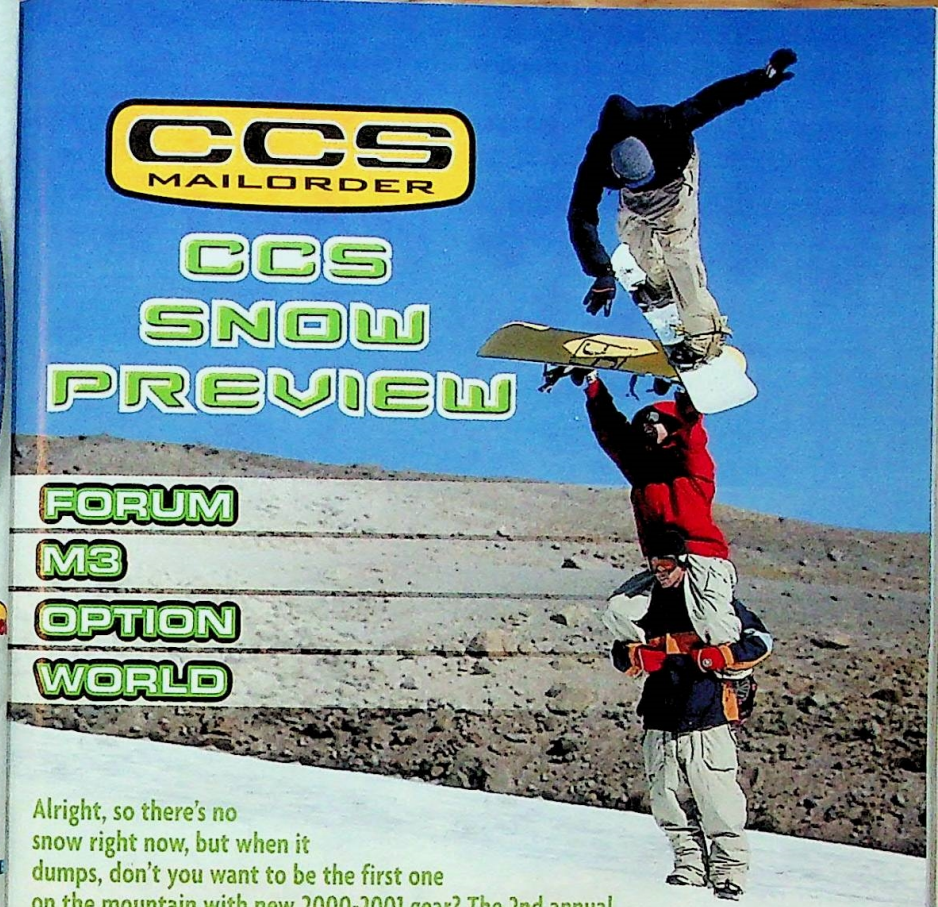
CCS SNOW PREVIEW



FORUM
M3
OPTION
WORLD

Alright, so there's no snow right now, but when it dumps, don't you want to be the first one on the mountain with new 2000-2001 gear? The 2nd annual pre-season snow section for CCS is the place to get what you need. We have the brands you know, want and should have for the upcoming season.

Included in this year's brand line-up, Forum and World Industries, two names you are most likely familiar with, along with M3 and Option – if you haven't heard of them . . . you will. Confidence is what you want when you ride. In order for this to happen you need to be confident in the brand. We are and feel you should be too.

Whether you ride tree lines, bowls, pipes or the park, we have the board you're looking for. Call our helpful sales staff, ask the questions you have, and we'll get you the answer. Technical information on board specifications can be found on our web site at www.ccsmailorder.com.

We look forward to bringing you more snow gear and brands in the near future. Fall and Holiday catalogs will be available soon, so look for boots, bindings, outerwear, and all the accessories you will need for the snow season to come.

The Universal 2000 mounting slider system from Forum is here. This system allows you to have multiple options for mounting your bindings to your board. Look for it on all Pro Model Boards on these pages.

M3 was founded in the summer of 1998 as a rider-directed company. In the words of Blaise Rosenthal, "There was no M3 before the riders decided there was an M3 — that's a pretty important fact. M3 started with us, it wasn't a bunch of marketing specialists deciding what the next big thing would be."

M3 boards are for serious use, from carving the steeps to riding rails. The long effective edge, allows for good park riding and precise edge control. Hand made in the M3 Factory in Portland, Oregon, the boards are known for durability and strength. The new sintered base material is also thinner and lighter than previous M3 models. The M3 riders have abandoned the name game of pro models in favor of designing and riding one line of boards that meets the needs of the entire team.

On graphic design Mikey Leblanc states, "We wanted the graphics to be kind of a social commentary on the eventual breakdown of the cities. But it kinda moved away from that. So now, more or less, it's just a city getting destroyed, people rising above through the hard times, and building a new city to live in."

M3 boards are snappy and responsive . . . exactly what you want to ride.

PREMIER

Premier G3 Snow Skate

Be prepared for the first dump of the year. It may not leave a trace of snow on the mountain, but if there is any in the yard, build a kicker, pull out a rail and test your abilities on the Premier G3 Snow Skate. This hard plastic, hand tuned snow skate has a soft grippy foam on its top side and speed grooves on the bottom. Kickflips, grabs, anything you can think of, anywhere there's snow. Pack it with you most anywhere for use at any time.

Top riders like Kevin Sansalone, Joni Makinen, Jon Cartwright and Andrew Hardingham are all rulers. These guys ride the whole mountain hard and with style. They all ride Option Snowboards because Option Snowboards are the ultimate in high performance quality snowboards. We've been building snowboards in our Vancouver BC factory since 1992 and we've been riding them in our home mountains of BC for just as long. We know what we're doing and we know what you want. When most of the snowboard industry was switching all of their production to cap construction, we remained dedicated to building the best sandwich boards in the world and we still do. Now we make damned sweet cap boards too. In fact, Option's CarbonTech and CarbonTech Plus constructions rule!

So whether you're looking for high performance sandwich or cap construction, Option has the snowboard for you.

How to Order a Custom Complete Skateboard

CHOOSE THE 7 PARTS OF THE CUSTOM COMPLETE SKATEBOARD FROM THE FOLLOWING PAGES

(Or you can order a Special Complete from pages 112-115 where we have chosen everything for you)

1 STEP custom complete

STEP 1: CHOOSE THE DECK
wooden boards.
Pages 82-94.

2 STEP custom complete

STEP 2: CHOOSE THE TRUCK
The axles (includes axle nuts) that hold the wheels on. You need 2 of these — they are individually priced in the catalog. Pages 95-97.

3 STEP custom complete

STEP 3: CHOOSE THE WHEELS
Kinda obvious what they do, but there are different sizes, you need 4 of these, also priced individually. Pages 92-94, 98-101.

4-7 STEPS custom complete

STEP 4-7: CHOOSE A CUSTOM COMPLETE PARTS PACKAGE

GRIP TAPE—keeps you from slipping off the deck (even deck only purchases come with FREE grip tape of your choice);

8 BOLTS & NUTS attach the trucks;

2 RISER PADS prevent the wheel from contacting the deck;

8 BEARINGS make the wheels roll fast and smooth.

Decks are available with wood or slick bottoms and come in a variety of sizes, listed with each deck. Wood decks are constructed of 7-ply maple. Slicks have an additional thin layer of plastic on the bottom which allows them to slide easier. Personal preference and experience best determine what size deck you should ride. Background colors on decks may vary. The decks on pages 82-93 are good for all types of skating.

Monster Wheel Packages

XT Dirt Wheel Set
Use this dirt wheel set to make a monster skateboard. These large rubber treaded wheels will cruise over all kinds of stuff.

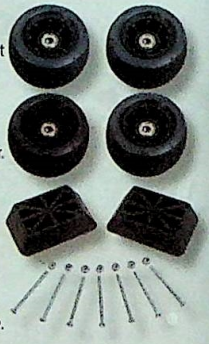
Set includes:
4 Dirt Wheels—112mm, directional rubber tread, nylon core. Durometer 55A.
2 Risers—1" rise with pyramid base.
1 Set of Mounting Hardware—2.5" silver bolts with locknuts.

#WHXTA $54.99
Upgrade your complete — add $27.05

Larger, wider decks and longboards work best (small street decks not recommended).

CCS recommended setup:
Powell Hot Rod Flames 2 Wood with Independent 166mm trucks and 1 pair of 1/4" Dooks Short Stacks (in addition to the 1" risers included).

For size comparison only. Deck and trucks not included with this set.



XT Super-Slick Wheels Package with Bearings
Same as the Dirt Wheels, but without the treads. Smooth tire design for street use and performance handling. Super-quiet for stealth mode. Tested for structure and speed, under load, at 60+ miles/hour.

Set includes:
4 Smooth Wheels—99.5mm, smooth rubber, nylon core. Durometer 65A.
8 High-Precision Bearings—with spacers, pre-lubed with ProLong lubricant.
2 Risers—1" rise with pyramid base.
1 Set of Mounting Hardware—2.5" silver bolts with lock nuts.

#WHXTC $64.99 Upgrade your complete — add $23.06

XT Air Skyhooks
Easy mounting to your mountain board for more control and balance. One set.
#ACOSXTA $8.99

Build a Custom Complete Start on page 81. The complete price listed under each deck includes premium parts, any $16.99 truck and any $5.99 wheel. You can upgrade your complete for additional cost—look for the symbol on pages 94-99, 102, & 104.

Longboards and Big & Soft Wheels

Longboards are good for cruising and transportation. Big and soft wheels complement longboards by rolling smooth and fast. For best results use extra risers and wider trucks. CCS recommends Independent 156mm, 166mm, or 215mm trucks. Choose a truck with an axle width close to your deck width. To build a complete, follow the instructions on the "Custom Complete Skateboard Order" form.

2 STEP custom complete

Build a Custom Complete Step 2—Trucks.

Choose any truck from these pages (95-97). Write your choice on the "Custom Complete Skateboard Order" form. The complete price listed under each deck includes any **$16.99 EACH** truck. You can upgrade your complete with trucks that have the symbol—add the upgrade price next to the truck to the complete price. For other complete upgrades at additional cost—look for the symbol on pages 94-99, 102, & 104. Next go to Step 3—Wheels—on page 99.

Trucks Silver $16.99 each, Colored $18.99 each (unless otherwise noted)

Trucks come in various heights and widths. Truck axle width should be closely matched to your deck width—or just a little wider. Truck heights only differ by about 1/4". If you use bigger wheels then you should either use higher trucks, risers, or both to avoid wheelbite (contact of wheel with deck).

Wheels $5.99 each (unless otherwise noted)

There are two things to consider when choosing a wheel: the size and the hardness. The size is the diameter (height) measured in millimeters. The hardness is measured using the "A" durometer scale. The higher the number, the harder the wheel . . . the lower, the softer. Most of our wheels are good for street, ramp, and technical skateboarding. For cruising, look for big and soft wheels on page 94.
